Aman B

amanb7466@gmail.com | +91 7499046679 | Mirzapur, Uttar Pradesh
LinkedIn | LeetCode | GitHub

Skills

Languages/Technologies: C/C++, JavaScript,Java,Python, TensorFlow, Keras, Streamlit, Git, VGG16, LSTM
Web Development: HTML, CSS, React, Node.js, Express.js, WebRTC, Socket.IO, Postman, Tailwind, Git, GitHub, Vercel
Databases: MySQL, MongoDB
Relevant Coursework: Data Structures and Algorithms, Database Management System,Object-Oriented Programming, Operating System, Computer Networks.

Education

Bachelor of Technology in Computer Science and Engineering, Jaypee University of Engineering and Technology, Guna, Madhya Pradesh — **Aug 2022 – May 2026**
- CGPA: 6.5 (Till 6th Semester)

Class XII, ST. Francis School, Varanasi, Uttar Pradesh — **Apr 2019 – Mar 2021**
- Percentage: 74.5%

Class X, ST. Francis School, Varanasi, Uttar Pradesh — **Apr 2018 – Mar 2019**
- Percentage: 81.8%

Projects

BlogBuddy – AI Blog Platform — **Apr 2025 – June 2025**
- Built a full-stack blogging platform with AI content generation via Google Gemini API, reducing the blog creation time by 60%.
- Integrated ImageKit API for CDN delivery and optimization, improving page load speed by 45%.
- Secured access with JWT authentication and role-based controls, managing 100+ users and 500+ daily requests.
- Deployed on Vercel with the CI / CD pipeline, achieving 99. 9% uptime and seamless auto-deployment.

Stock Price Prediction System — **Dec 2024 – Feb 2025**
- Built a real-time stock prediction app using LSTM, trained on 10 years of historical data via yfinance API.
- Achieved MAE under 2.1 and RMSE below 2.8 after time-series preprocessing and model tuning.
- Deployed the solution with Streamlit for interactive forecasting and real-time visualization.
- Designed a responsive UI with React and Tailwind, improving user engagement and retention by 50%.
- Deployed on Vercel and Render, enabling seamless access with 99.9% uptime.

Image Caption Generator — **Aug 2024 – Oct 2024**
- Built an image captioning model using VGG16 for visual features and LSTM for text generation, trained on the Flickr8k dataset.
- Applied preprocessing techniques like padding and tokenization to enhance sequence modeling.
- Achieved meaningful captions with BLEU-3 score of 0.52 and strong performance on METEOR and CIDEr metrics.
- Successfully tested the platform with students from 3 colleges, gathering useful feedback for improvements.

Certifications

- Learn C++ Programming - Beginner to Advance (Udemy).
- Completed Infosys Springboard Al/ML Certification.

Achievements

- 3-Star rated coder on HackerRank
- Solved 100+ coding problems on LeetCode and GeeksforGeeks.
